LETTERS FROM KANSAS-No. 13.

LAWRENCE, K. T., April 3, 1855. Ed.tora Sentinel: - The general result of our scent election will have doubtless reached you long before the receipt of this, but this great iniquity cannot be kept too prominently before the American people-not the northern people only for the southern are as deeply, as vitally interested in it as the northern, for all alike must feel the immense results, favorable or unfavorable, as their interests may be effected by it. That it shell be favorable to freedom in the aggregate. as certain as that a God of Justice governs the struits of nations as of individuals.

I will not stop to make any reflections upon hose overwhelming evils-which have been brought down upon us, and which from our comparative weakness were permitted to cover us as anth a pall, for a limited time however, as I hum ly hope and trust-"slavery and distation." t cannot be that the sensibilities of northern nen especially will allow this great evil to pass without reflection, or with a single thought; on he contrary they must poneer and reflect soout y upon this monster outrage upon Freedom and the rights inslicable to humanity, and, more than the, they must ponder and come to a deterin ition in reference to its results, for rest assured that this is but the "beg: to ug at the end," and what that and must be, if the slave interest does ot abandon its object, and the means it employs or the attainment of that object, which it has ieser yet been known to des it does not require the ken of a "prophet or the son of a prophet" to foresee. The effect is too nearly allied to its nuses, now in operation, and plainly visible, to be for a moment mistaken. From present indicutious, whether Kansas be a free or a slave State. noless the slavery propagatida recede from their present position, its incrpient history must be written in blood, its advent must be attended by the turces of civil war-I will relate to you some of the incidents at-

ending the recent election, which came within my own observation, or which came to me on rehable authorny. There were, from 8,000 to 10,-900 persons, by their own frequent admissions. from Missoum Kontucky, Tennessce, Virginia, l'exas and other southern States, who came into he Territory to vote, and as scores of them, freely and proudly declated, without an actual resience or intention to make such in the Territory. Phur solo object, they affirmed to be, to vote. our justifying themselves on the plea that their nterests were involved in this election; others, that, it being a territory, every citizen of the United States had a right to vote here. The most of them, however, had no reason to give, Might, to them, made right. One thousand were detailed for this place; so I was reformed by a pro-slavery man, residing in our vicinity. They commenced coming in on Thursday morning, the day preceding the election, and pitched their camp in the immediate vicinity of the place of voting. During the day and succeeding night they continued to flick in in crowds, coming principally in large covered wagons, Missouri that, it being a territory, every citizen of the principally in large covered wagons, Missouri wagons, as they are called, and on horse back. I vertured into the press about 10 o'docks and was 4) otted from it about 11, having undergone a pressure of. I should say, several horse power, for one hour, but in the mean time I had deposited a free-state vote. The house in which the polls were held was built of logs and one story high, the window where the votes were taken being in the sate; and such was the tremundous pressure, that a very large portion of the voters preferred te climb upon the roof, being hoisted up by the crowd, pass over it and jump off the opposite sides to pressing their way out. This state of things continued till discrement on was permitted to enter except at the rear. In this way it took more than no hour to reach the place of voting. were arriving and departing most of the time.
Be sides these there were probablysome 200 horsemen. I was advised by some of my arquantaness
among them, (there are pro-slavery men living
in our district) during the day, to use my influence to prevent a number of our prominent men,
as Dr. Robinson the President of the Lawrence

to vote, as they would be in danger of personal violence. Ye gods! such men denied the

NEW STORE.-Messrs. Goodnion & HUSTER have just completed and moved into their new brick store, at the foot of East Water St., and we do not hesitate to say that there is not a better building for the purpose in the west. As their business is entirely wholesale, the stock being hogeheads and barrels of sugar, molasses and oil, and tea and coffee in chests and bags, it was necessary that the warehouse should be built of more then usual strength, and this object has been kept steadily in view throughout. Piles were driven, and a foundation and commodious basement laid in stone. Upon this the massive brick walls of the building rise, four full stories envering a space of about 50 by 120 feet on the ground. The wavehouse is fired with iron shutters throughout, and fire proof. All the numerone modern contrivances for hoisting and lower ing goods, weighing, &c., are provided; and, the building being upon a corner, there are doors for

On the said evening, between the hours of ten and cleven, Mr. Smith had retired. His wife and other members of the family were preparing to follow suit, when suddenly three negroes burst open the store door, where Mr. S's, clerk was stepping. At the same time four men disguised as negroes, entered at the beek door, each one entrying a club. They sought the sleeping apartments of Mr. Smith, and dealt him a number of blows, wounding him severely in several places. They also attacked Mrs. S. and a young lady residing with them, knocking them both down, and beating them in a most diabolical and shocking manner. In the meat time, the ruffins in the store having beaten the clerk in the most brutal manner, inflicting several deep wounds on his head, rifed the desk and drawers, taking theretion \$670 in specie.

Mrs. Smith, notwithstanding theseverity of her wounds, retained her presence of mind, and crawied to the table upon which was a loaded pistol. She placed the weapon in the hands of her husband, who was not long in directing a sure aim at the breast of one of these veryabonds. The pistol was instantly discharged and the victim fell heavily on the floor. His comrades heing alarmed, anetched up their wounded companion and hurried away. They did not take a part of horses, nor were they workmen of Mr. Smith, as stated in the Advertiser last week; but wore his neighbors, and their names are all known to him. As an add tonal inducement to the loves of law and order, Mr. S. offers one hundred dollars for such information as shall lead to the arrest of the ruffins; or two hundred dollars for their arrest and the recovery of the money — [Ozsukee Advertiser.

ed that this is but the "began mag at the end," and what that end must be, if the slave interest does not abandon its object, and the means it employs or the attainment of that object, which it has nesor yet been known to do, it does not require the ken of a "prophet or the son of a prophet" to foresee. The effect is too nearly allied to its auses, now in operation, and plainly visible, to be for a moment mistaken. From present indicatious, whether Kansas be a free or a slave State. unless the slavery propagatida recede from their present position, its incipient history must be written in blood, its advent must be attended by the thross of civil war.

I will relate to you some of the incidents attending the recent election, which came within my own observation, or which came to me on rehable authoray. There were, from 8,000 to 10. 900 persons, by their own frequent admissions, from Missour, Kentucky, Tennessee, Virginia Pexas and other southern States, who came into the Territory to vote, and as scores of them, freedence or intention to make such in the Territory. Phur solo object, they affirmed to be, to vote, some justifying themselves on the plea that their entercate were involved in this election; others, that, it being a territory, every citizen of the United States had a right to vote here. The most of them, however, had no reason to give. Might, to them, made right. One thousand were detailed for this place; so I was informed by a pro-slavery man, residing in our vicinity. They continued coming to on Thursday morning, the day preceding the election, and pitched their amp in the immediate vicinity of the place of oting. During the day and succeeding night they continued to flock at in crowds, coming rencepally in large covered wagons, Missourt wagons, as they are called, and on horse back. Provisions had been stored, in the very house ppointed for holding the polls, some time preously. On the evening preceding the election a meeting was held in the camp for the purpose of sending two hundred men to Techmanh district to vote there, as it was thought they had a super abundance for this place. The camp here mostly dispersed, or rather star ted home to Mo. before night of election day, but the 200 which went to Tecumseh returned to the 200 which went to Teconisch returned to the scamp to spend the night, and from them who had been supplied with liquor during the day, we anticipated the attack on the printing office, and so fearful were their leaders that it would be mide, that one of them who had left with the return parties, retoraced here and spent the night with them in camp. It was unnounced, weeks belore, that the city would be burned on election day. We were fully determined to zet only on the detensive, but no violence would be permitted upon our property.

Mr. H. Smith, Post Master at the Ten Mile House, baving recovered sufficiently from the wounds inflected on his person, by lawless rufflors on the above named evening, writes us a full statement of the inhuman after.

On the said evening, between the hours of ten and eleven, Mr. Smith had retired. His wife and other members of the family were preparing to follow suit, when suddenly three negroes burst open the store door, where Mr. S's, clerk was sleeping. At the same time four men disguised as negroes, entered at the back door, each one carrying a club. They sought the sleeping apartments of Mr. Smith, and dust him a numbur of blows, wounding him severely in several places. They also attacked Mrs. S. and a young lady residing with them, knocking them both down and beating them in a most disbolical and shocking manner. In the wean time, the rufflans in the store having beaten the clerk in the most bruts!

Mestrs. A. G. Braco & Co.—I have been using you Maximu Musicang Liniments for some weeks, and it has produced a cure on me that is truly wonderful. For the att faces or four years I have had a large hunch gather on the sole of my foot, covering one-half of the whole surface, quite hard and bony, yet as tender and sore as hough the flesh was entirely bare. I have tried various remedies, and consulted many medical men of high stand ing, and have had my feet lanced numerous if nee, an not long since the hard bunch was cut out, but to no affect. I noticed your Liniment was advertised as a carr for sorts, tumors, hard hunches, &c, and I made a trial for sores, tumors, hard havehes, &c, and I made a tris and by the use of two bottles my foot has entirely reco-ered, and is now as smooth and soft as it ever was. The are hundreds who are knowing to the above, and have seen the foot, and can testify that the same is true. Yours, most respectfully.

The brief article which we made at that time was penned without rny definite knowledge of Mr. Jaucan's carly history, other than that we bolieved him to be the first settler of Milwaukee, and supposed, though erroneously, that he went there from Green Bay.

We are reminded, by Mr. A. J. Vicau, of this place, that his father, Mr. James Vicau Sen, emigrated to and settled in Milwaukee some vears before Mr. Juneau came there; and that before Mr. J. B. FROM MACKINAG.—The Seginaw Spirit of the Times of the 10th brings us a little later intelligence from Mackinac, gathered from one of the over-land mail-carries on Mr. McKnight's route. Lake Huron is reported clear of ice.

At Boss Blanc, nue miles at this side of Mackinaw, Point Au Gray and other points on the Lake Shore, no ice was to be seen. Tigh winds had driven it upon the Canada shore.

The Struits of Mackinaw were still frozen over, but the ice was poor and crossing unsafe. Three or four days at most would open the Strits.

On Sunday there was fleating ice in Seginaw Bay, but later accounts says none can be seen from the Segioaw Light.

Bay, but later accounts says none can be seen from the Segioaw Light.
For miles this side of the mouth of Sauble River, the carrier found the body of a mrn embeded in the sandy shore, with his legs and feet in the sir. Orows were picking the flesh from his boned. It was undoubtedly one of the crew of the ill fated propeller Bucephalus, which was wrecked in the Bay last sesson.—[Detroit Tribunc.

One has been sustained in the vote he gave against the Fugitive Slave Slave Law, while in Congress in 1850. The position he took, among other Republicans who met in State Mass Convention at Madmon in July last, has also been a samed. Stategeoreregoly has been sustained, and very soon we will hear of very todapendent decisions in our Ourcuit Courte against Federal usurpations. Mark that—well. It the people of other States will let their votes thunder in the same direction, the Legro question will soon subside, slavery will stay at home and not wander abroad the free territory, the government will then begin to which for the good of free white men lowead of pander to the low and selfish demands of a few negto proprietors—Then peace and union between North and South will regre,—never before—no, never.—[Grant Co. LAND WARRANTS — We are paying one dollar per acre and selling at one dollar and six cents per acre. The new Warrants will come on the market in June, when they will begin to fall in price. The turket, however, will not be assentially overspecked before winter acts to, when they will, in our opinion, sink to saxly cents per acre. This much is certain—those who have Warrants to sell, will be wise to act without delay — Thompson's Reporter, 14th Co. Rerald
